SUMMARY

Computer Engineering student at Vidyalankar Institute of Technology with a 9.5 ACGPA and a strong interest in data science, web development, and software engineering. Skilled in Python, SQL, Microsoft Azure, and full-stack web development, with hands-on experience in machine learning, data visualization, and practical project development. Eager to apply analytical and problem-solving skills to real-world challenges while continuously learning and growing in the field.

TECHNICAL SKILLS

Python : Pandas, NumPy,	Data Structures	Data Warehouse & Mining
Scikit-learn, Matplotlib	HTML	Microsoft Azure Services
OOPs	CSS	Data Visualization
Machine Learning	Javascript	Microsoft Excel, Word
Git, Github	SQL	Artificial Intelligence

PROJECTS

DataMine Simulator

- Developed a full-stack application for managing end-to-end data workflows and datasets.
- Built ETL pipelines using Microsoft Azure Data Factory to transfer data from Blob Storage to SQL Database.
- Deployed the application using Azure Static Web Apps and App Service.
- Tech Stack: Python, SQL, HTML/CSS, Microsoft Azure.

Hybrid Deepfake Detector

- Built an AI-based deepfake detection system using Python and deep learning techniques for identifying manipulated media. Implemented preprocessing, feature extraction, and model evaluation pipelines for fake image/video classification.
